

DWA_12 Knowledge Check

To complete this Knowledge Check, ensure you have worked through all the lessons in **Module 12: Declarative Abstractions**.

To prepare for your session with your coach, please answer the following questions. Then download this document as a PDF and include it in the repository with your code.

1. What are the benefits of direct DOM mutations over replacing HTML?

Performance boost

More precise control over elements, event handling

2. What low-level noise do JavaScript frameworks abstract away?

JavaScript frameworks help abstract away manual DOM manipulation.

3. What essence do JavaScript frameworks elevate?

Websites have common features, frameworks can provide the basis of developing your own project by providing pre-written code for these features.

4. Very broadly speaking, how do most JS frameworks achieve abstraction?

They hide away the imperative DOM mutations

5. What is the most important part of learning a JS framework?

Practice to gain experience in using frameworks
